A Historical Genealogical

about LYNDON,
OSAGE COUNTY, KANSAS.

AS REVEALED BY THE ASSESSORS' RETURNS FOR THE
YEARS OF 1896, 1897, and 1900.

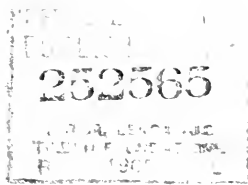

The Author has made diligent inquiry for four years as to their native place, family connections here, names and locations of the children, in many cases the occupation, and various historical notes. But the work is not warranted to be free from error, names, number, and ages of children especially.

HISTORICAL AND GENEALOGICAL DIRECTORY

OF THE

INHABITANTS OF LYNDON AND THE

SURROUNDING COUNTRY.

—:—:—

A list of, and short history of about 1800 men, women and children who live, or have lived during the years 1895-96 and '97, according to the assessor's returns, in Lyndon, or in Valley Brook township, Osage Co., Kan., or so close in adjoining townships that they in many cases trade and get their mail at Lyndon. And in other cases the names of some are given who belong to the numerous orders and have fellowship with Lyndon societies. In all cases where anyone's name is given, that lives out of the township, that fact is stated.

In giving distances and directions of farmers locations from Lyndon, I do not claim to be exact. This is only intended to be a help in locating a person so that with little inquiry they may be found, providing they are not like the Irishman's flea, here and there and everywhere, as some of the tenant farmers are year in and year out.

The ages of heads of families and in some cases ages of children or of grandparents are given; but the author does not claim them to be accurate as they are drawn from the assessor's rolls where frequent mistakes in copying are made, or in some cases from guesses made by second parties who may miss by ten or twenty years, so that I do not want to have trouble with any man for calling him a widower of forty who is yet a young man of twenty-five. By my giving the ages, I do not think it will hinder any from getting married neither will it keep them from living to a greater age. While on the contrary it makes the history of the present two or three generations: viz, grand-parent, child, and grandchild the more complete in a historical and genealogical point of view.

I have not in any case mentioned politics and only in few cases reference is made to what church a man belongs. If an old soldier, I have tried to remember and so state it. In many cases that tells the state form which a man originally came. In other cases by inquiry, or from my own knowledge, I have tried to tell the reader the native state:—The assessor's returns do not show this.

No effort has been made to tell about the lands, houses, monies, and worldly goods that these people possess. "The cattle on a thousand hills are mine, saith the Lord", so that in ten, twenty, or forty years from now, some of these

families that are now tenants will be the landlords and bankers of our community. And the rich men's sons and daughters of the present day will have their inheritance all spent and be inmates of some of our almshouses or be dead heading their way on electric railways to the Klondike. There will be no more Indian Reservations for them to squat on and lay claim to nice 160 acre farms as we did here at \$1.50 per acre, but all shall come to one common inheritance, a grave 3 by 6 for our dust, and the spirit to God who gave it. So let us look to it carefully that we lay up the right kind of riches and get titles to mansions in the skies.

The preparation of this list of names has cost weeks of labor on the part of the author and I now submit it to you with the desire that errors shall be overlooked and that whatever in it is good may meet with your approval.

ATTENTION, READER.

It is more than three years since we printed the preceeding pages of this "Historical-Genealogical Directory" of people around Lyndon. We cannot very well revise what has been printed. When we get through the alphabet, if space permits, we will make corrections of the first. From this page we will try to bring the matter up to the 1900 assessor's returns. Hardly a family but in the three years have had some event to happen, a birth, a death, a marriage, a graduation from school, a service by some soldier boy, etc. One has only to look over pages of history a few years old, to see the many changes going on around us. More than five years have elapsed since the first pages of this book was printed and probably a dozen printers have worked on it by turns, but we despair not in our undertaking, and in due time hope to present the friends with the "ANNALS OF LYNDON."

There are yet many names we know we have not obtained, which we expect to get and fill out 2 or 3 pages more, before the book is printed.

All parties are invited to assist me in correcting the errors in this and getting new names of people in or around Lyndon.

These 76 pages are drawn from my book "Annals of Lyndon." When I commenced the work in 1898, of gathering the names and a short history of the inhabitants in and around Lyndon, I little thought there would be such a large number as there proves to be by an estimate at the end. Many do not desire to buy the bound book at \$4 or \$5, nor wait until it is done. It has now over 400 pages. So I have issued an edition of 235 copies of the Directory part, and named it "Us and Our Neighbors." The price will be 35 cents to those around home, and 50 cents when sent abroad. Parties desiring to subscribe for one of the 240 copies of my book "Annals of Lyndon," can do so any time.
